

Your children do not speak French at all? Do you think that the French education model might be good for them? **Thanks to our new French foreign language program, they could become French competent speaker in three months... That is now possible !**

As part of our plans to open the Tokyo International French School to new audiences interested in French education, our school starts a French beginner program for intensive learning as of April 2012. With our new program focused on the followings key words : integration, comprehension and assimilation, **the impossible will become possible.**

## Welcome to the International Tokyo French School !

### Main goal

Our new intensive three months class program will give international children a good level in French, good enough to follow classes taught in French.

### Target

This class is intended to students aged between 5 and 7 years old.

### Organization

Students will be registered in a class appropriate to their age and will follow a 24 hours a week French course from April 2<sup>nd</sup> to June 28<sup>th</sup>, 2012.

As soon as your children satisfies all our requirements, he/she will integrate the usual class with French students.

### Contents

Every student will be offered a specific program focused on oral language. A team composed of the students' family, the school head and a group of French foreign language teachers will check every student's challenges to ensure real progress.
